BRIEF ABSTRACT OF LETTER

[illegible]

NOTES AND ORDERS.

The total cost of the establishment of 1 Forester on Rs 40 plus 10 per cent and two guards on Rs 15+3 each p.m. will be Rs 1032 per annum which is proposed to be met from the Temple Funds of Kalasa. The continuance of this establishment is stated to be necessary in view of the five-year programme of work proposed to be done for the improvement of the Temple Forest

The recommendation of the M.C to continue the Establishment for a further period of five years from 1937-38 is subd for orders

The Dy. Comr., Kadur

26/5 st., states that he has requested the st. Forest officer, Kadur st., to submit a report showing details of the work done and remaining to be done and the financial results of the operation. It is a point for consideration whether it is not desirable to await the receipt of the report before sanctioning the retention of the establishment for another five years. Pending the receipt of the report the temporary establishment may be continued for another year. Separately the Dy. Comr., Kadur st., states that the temporary Forester has not got sufficient work throughout the year. The Inspl Comr. may be requested to consult the Chief Conservator on the question of giving other work of the Forest Dept. with a view to keep him fully employed. This will have the effect of reducing the cost of the establishment of the temple as stated by the Comr., Kadur st.

Govt. Sr. The M.C.'s proposals may be sanctioned

GENERAL SEC 15 MAY 1937

SIR,

Continuance of the Forest Establishment of the Kalasa Temple.

With reference to G.O.No.1641-2/Muz.261-34-2 dated 11-6-1935 sanctioning the marginally noted Forest Establishment for two years

One Forester on Rs 40 plus Rs 15
Two Guards " Rs 15 " Rs 3 each

from 1-7-1935, I have the honor to state that the Chief Conservator of Forests in Mysore having made a refence to this office re. the action to be taken for its further continuance if necessary, the Deputy Commissioner was requested to report about the work so far done by the Forest Staff and that remaining to be done. He was also asked to furnish information about the income realised by the temple during the period of the Forest operations and the need for its further continuance.

2. He states that he had an informal talk with the District Forest Officer, that a 5-Year programme has been drawn up and that there is great scope for developing the Forest resources and recommends the continuance of the present staff for another year, pending consideration of the question of retrenching the staff or otherwise reducing the cost of establishment which the temple has to bear. A copy of his letter is enclosed.

3. A statement of the Forest income accrued to the temple during the past 5 years is also enclosed. It will be seen that the bulk of the forest revenue to the temple is from sandal for the present and that forest products other than sandalwood need to be developed.

4. During my recent visit to Kalasa, I had personal discussion with the Deputy Commissioner and the District Forest Officer on the subject and also inspected the Forest Nursery wherein cashewnut and tungoil have been planted. The plants have come up well. It has suggested to the District Forest Officer to plant some area with Eucalyptus and lemon grass and has been asked to send up proposals. The details of the area already planted are given in the Deputy Commissioner's letter.

5. As it is necessary to continue the establishment in view of the programme of work that is to be done in connection with the improvement of the temple forest, I recommend that sanction of Government may kindly be obtained for continuing the present establishment for a period of 5 years from 1st July 1937.

I have the honor to be,

Sir,

Your most obedient servant,

Muzrai Commissioner.

SIR,

Forest staff- Forest land of Sri Kalaseswara Swami temple at Kalasa-continuance of-

With reference to your letter No. C.1197/36-37 dated 30/30th Marc 1937, calling for my opinion re. the continuance of the special forest staff for managing the forest lands of Sri Kalaseswara Swami Temple at Kalasa, I have the honour to state that I had an informal talk on the subject with the District Forest Officer, Kadur District to-day. He informs me that he has drawn up a five year programme of work in the forest lands and that he would send up the details of the working programme shortly.

The Forest Officer has also been requested to send a report showing the details of work done so far and what is yet to be done and the financial results of the operation. His report will be forwarded soon after it is received.

I have seen the work done in this area and I agree with the District Forest Officer. There is great scope for developing the Temple forests. At present cashew nut and tung-oil plants have been planted and they have come up very well. The area planted so far is noted below for your information. The tung-oil has not yet begun to yield a good revenue, should it thrive and the District Forest Officer states that the plants are thriving well. It is proposed not to increase the area of the plantation. The District Forest Officer has also been requested to investigate if it is not possible to conserve the grass grown here in silos, pits and sell the same

during the summer when the fodder difficulty in I understand accute.

I have requested the District Forest Officer to kindly make it convenient to accompany you when you go to Kalasa on inspection this month, so that he may show to you the work that is being done.

There may be no work for a full time Forester throughout the year and the District Forest Officer is looking into the matter whether other departmental work may be assigned to him and the charge to the temple on this account partly reduced. Pending this, as it is necessary to continue the establishment, the Forester on Rs.40/- plus 10 and two Guards on Rs.15/- + 3, each may be continued for a further period of one year from 1st July 1937.

As regards the income so far accrued to the temple, I invite kind reference to my letter No.A5.2884-30 dated 23-3-1937 with which a statement of revenue realised from the Forest lands from 1931-32 to end of 1935-36 has been sent for information. The income is quite satisfactory and is largely derived from the exploitation of the Sandal wood in these Forest.
